

The Anti-Ragging Helpline is a nationwide service, student, parents, hostel workers can call and report at any times. On getting a complaint call, we will respond within minutes by informing the College authorities, and keep a close watch on the situation. All students are encouraged to inform the helpline for every incident or even an apprehension of ragging at any level. Even if a student has directly gone to their head of institutions and made a complaint, please make sure you register a complaint with the helpline as well. Further, if the complaint does not want to disclose his/her identity, they can still register their complaint on the helpline.
