

Industrial Visit to Madurai International Airport on 20.09.2017

The students of this program need to study subjects such as Travel Agency Business, Airline Ticketing, Cargo Management and Airport Management. In order to know the Practical aspects, the students were taken for a field visit to Madurai International Airport on 20.09.2017. The Airport Director and Officials took the students to the various sections of Madurai Airport and explained about the technical features involved in airline operations. The students were given inputs related to airline ticketing, check-in procedures, luggage handling, cargo management and emergency procedures. They were also allowed to see two aircrafts and the departure/ arrival of flights.
