Human Resource Management is the area of specialization which can collaborate with the Department of Commerce, career planning, development, Placement, Transfer and promotion, Selection Process and organization. I can do teach, research and other knowledge sharing activities in the field of management with special reference to Tamil Nadu.

Commerce is the main concerned field and one of the significant in the management of India which includes multitude of organization elements came in to practice. Planning, Organizing, Directing, Controlling and Coordinating etc., are important components of the Management. Research and consultancy can be focused in the area.

Limited books in the department library, smart class rooms, seminar hall, computers, printers, Xerox machines and Internet facility are available in the department of commerce
