Details of the consultancy services related to studio space, audio visual equipment and production assistance that are offered by the Centre for Film and Electronic Media Studies.

The Centre has the following laboratories with necessary equipment and accessories for Film/TV production projects:

1. Shooting Floors with PCR
2. Editing suites
3. Dubbing theatre
4. DTS Mixing theatre
5. Color grading suites
6. Film mastering lab
7. Graphics and animation lab
8. Script writing lab

These are all state of the art laboratories and can be used to produce, record or live stream video and audio content in most modern formats.

Area of expertise:

1. Script development and production design
2. Indoor and outdoor shooting
3. Sound recording - dubbing/Voice-over/mixing
4. Online and offline editing
5. 2D & 3D Animation
6. Color grading
7. Pipeline development
8. Multi camera shoot

Our team has a wide range of equipment and expertise to offer. Apart from booking equipment, studio space and other services, we also provide production advice and consultancy.

Services offered:

Whether you are making a film, training DVD or doing voice over work, you can book out audio visual equipment for on and off campus media production work. In nutshell we provide assistance in any aspect of video or audio production, from conception to delivery.

Apart from catering to industrial needs, we also provide services to individuals especially teachers of school, college and higher education in making video lectures, e-content development and lessons for MOOC.
