- Entrepreneurship

Area of Research

Logistics and Supply Chain Management

Consultancy and research experience

I have more than 15 years of Academic and research experience in Quantitative Techniques, Operations Management, Software Management, Entrepreneurship and Supply Chain Management and Entrepreneurship and Management. I have been involved in Teaching, Research and Extension activities. I have worked on Projects in Supply chain management.

In association with HLL Life care Limited, Trivandrum identified the problems, benefits and impacts on logistics and supply chain Management and prepared model for the effective utilization of existing SCM and its process activities.
