## **Areas of Potential for Consultancy to Industry**

I have 12 years of Academic and Industry experience in Healthcare. I have been involved in Teaching, Training, Hospital Operations and Health related Extension activities like ,Child Nutrition, Personal Hygiene and General Waste Management. I have worked for National Accreditation Board for Hospitals and Healthcare Providers (NABH).

### **Areas of Expertise**

Implementation of NABH standards for Entry level, Progressive level and Full Accreditation status for hospitals

### **Contribution in Product/Process Development and Technical Management Development**

1. Have established Linen Management and Distribution system in hospital.
2. Evolved a process pertaining to Admission of patients (to curtail the waiting time during admission)
3. Developed an exclusive hazard free discharge process for patient satisfaction (both for claim and cash patients)
4. Have promoted a process for timely supply of food for In-Patients.
5. I have streamlined Bio Medical Waste Management practices in Hospitals.

### **What I can offer to the Industry as Consultancy**

1. Can provide an exclusive system for Patient Satisfaction(from admission till discharge)
2. Can develop Emergency Code protocols for hospitals.
3. Can develop patient safety practices in hospitals.
4. Can develop audit systems in hospitals for Quality output
5. Can develop a process for Infection Control in hospitals.
