

ALUMNI FEEDBACK ANALYSIS

2018-19

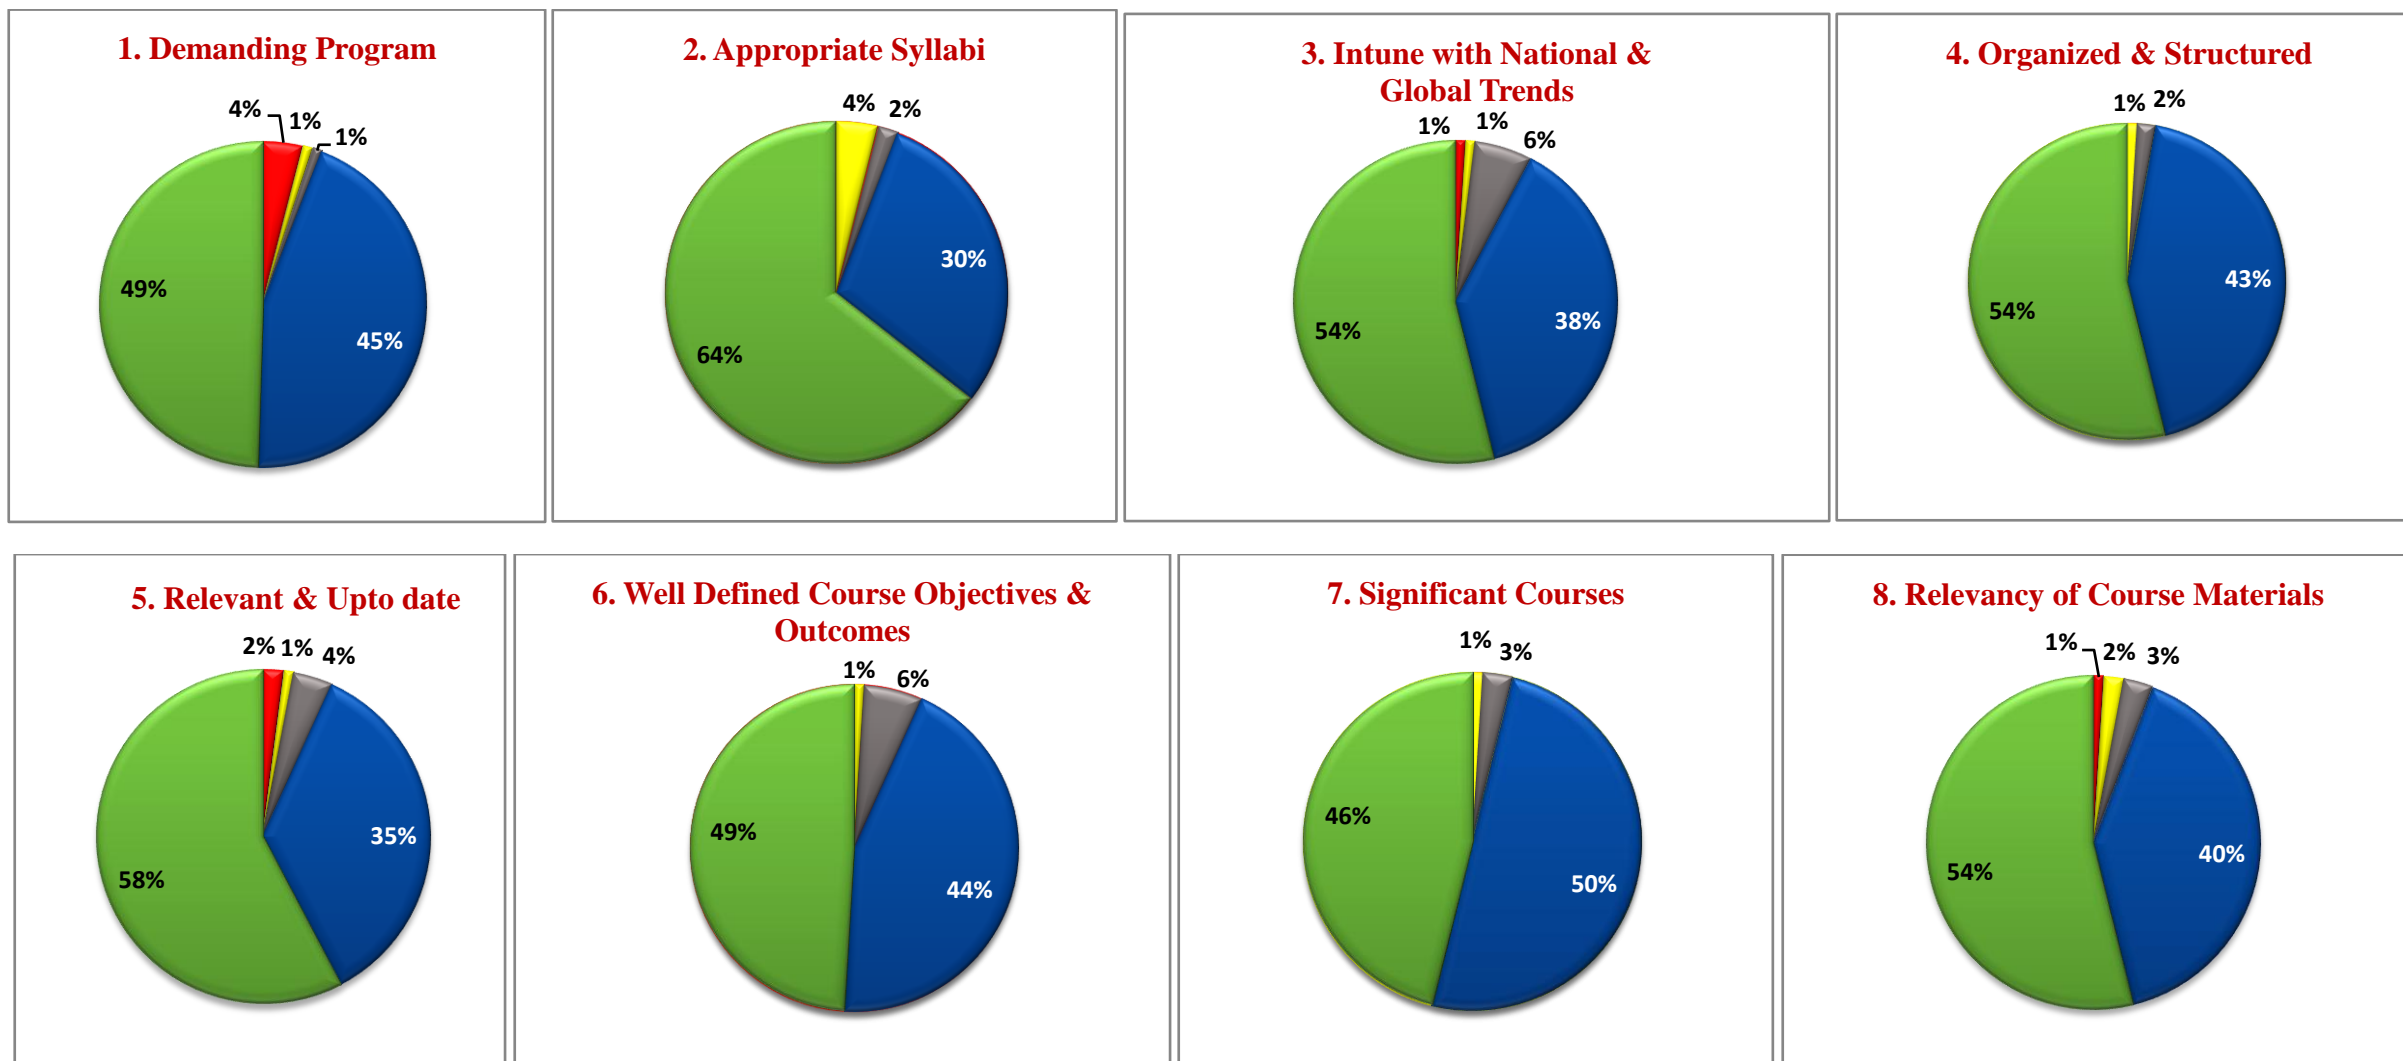

OBSERVATIONS

- More than 90% of the alumni have agreed/ strongly agreed the competency of the syllabi.
- Strengthening the analytical/experimental skills, up to date topics on par with National and Global trends in the syllabus will make the 3 to 5% of alumni agree the competency of the program.
- However 3 to 5% of the alumni respondents feel that the program offered should be suitably demanding by framing the appropriate syllabi.
- Faculties should ensure on-time completion of the syllabi and the conduct of internal tests.
