“Strengthening Ethics and Values for Sustainable Growth”

**Organized by
Centre for Educational Research - Madurai Kamaraj University
on 17th & 18th August, 2021**

Report of the National Webinar

Ethics is the branch of philosophy dealing with values relating to human conduct, concerning the rightness and wrongness of certain actions and the goodness and badness of the motives and ends of such activities. It includes a study of universal values such as the essential equality of all men and women, human or natural rights, obedience to the law of the land, concern for health and safety, and, increasingly, also for the natural environment.

Ethical behavior is necessary for a society to function in an orderly manner. It can be argued that ethics is the glue that holds a society together. Values can be defined as broad preferences concerning appropriate courses of actions or outcomes. As such, values reflect a person's sense of right and wrong or what "ought" to be. "Equal rights for all", "Excellence deserves admiration", and "People should be treated with respect and dignity" are representatives of values. Values tend to influence attitudes and behavior and these types include ethical/moral values, doctrinal/ideological (religious, political) values, social values, and aesthetic values. It is debated whether some values that are not clearly physiologically determined, such as altruism, are intrinsic, and whether some, such as acquisitiveness, should be classified as vices or virtues.

In this context, the CER has planned to organize a **two-day National Webinar on “Strengthening Ethics and Values for Sustainable Growth”** on **17th & 18th August 2021** for realizing the objectives of the Centre, rethinking our roles and to prepare skilled, scholarly, and socially responsible professionals.

The first day Technical session (17.08.2021) was handled by **Prof. A. Edward William Benjamin, Director, Centre for Distance & Online Education, Bharathidasan University, Tiruchirappalli** on the topic of **“Professional Ethics of the Teacher at the Higher Education”**. In this session he explains about as members of the academic community, faculty and students have a responsibility to abide by ethical principles regarding academic freedom, intellectual integrity, and the fair and respectful treatment of others. The notion of academic freedom lies at the very heart of the academic enterprise. In this session he explains about the teachers must model strong character traits, including perseverance, honesty, respect, lawfulness, fairness, patience, and unity. As an educator, teachers must treat every student with kindness and respect without showing any favoritism, prejudice or partiality. Teachers must maintain confidentiality unless a scenario warrants involvement from parents,

school administration, or law enforcement, and never use relationships with students for personal gain.
