Report of the National Webinar

With the changing face of families from the traditional joint family to nuclear families, the physical and emotional strains of new parenthood also increase, as couples have to cope with new responsibilities, by themselves, and without help and time-honoured advice from the elders. India is composed of a diverse population with assorted religious, political and cultural views on child-rearing practices. With so many differences among Indians, it is impossible to ascribe a unified set of customs and beliefs about child-rearing to the entire country. Influential factors on child-rearing practices such as socioeconomic status, education and individual experience vary from family to family.

Children have the right to be safe, to be treated with affection, to be educated, to have medical care and to be protected against cruelty and abuse. Parents have the duty to protect their children's rights until they are old enough to make their own way in the world. The authority to make decisions concerning and affecting the care, welfare and proper development of the child is known as 'parental responsibility'.

Parenting is the most fulfilling job that we will ever have, but it's not without its challenges. Modern family life can be stressful and with various pressures on families it's not always easy. Ultimately, parents want what is best for their child and a strong parent-child relationship can help lead to better outcomes for children. The Parent-Child Relationship is one that nurtures the physical, emotional and social development of the child. It is a unique bond that every child and parent will can enjoy and nurture. This relationship lays the foundation for the child's personality, life choices and overall behaviour. It can also affect the strength of their social, physical, mental and emotional health.

In this context, the CER has planned to organize a **two-day National Webinar** on **“Child-rearing and Parenting Styles” for Student-teachers, teachers and parents on 04th & 05th April 2022** for realizing the objectives of the Centre, rethinking our roles and to prepare skilled, scholarly, and socially responsible professionals.

Early childhood 2-4 years	Will	Autonomy vs. Shame/Doubt	Parents	Is it okay to be me?	Toilet training, clothing themselves
Preschool age 4-5 years	Purpose	Initiative vs. Guilt	Family	Is it okay for me to do, move, and act?	Exploring, using tools or making art
School age 5-12 years	Competence	Industry vs. Inferiority	Neighbours, school	Can I make it in the world of people and things?	School, sports
Adolescence 13-19 years	Fidelity	Identity vs. Role Confusion	Peers, role model	Who am I? Who can I be?	Social relationships
Early adulthood 20-39 years	Love	Intimacy vs. Isolation	Friends, partners	Can I love?	Romantic relationships
Adulthood 40-64 years	Care	Generativity vs. Stagnation	Household, workmates	Can I make my life count?	Work, parenthood
