Welcome Message

I am very much delighted to invite everyone to the **"International Conference on Obesity, Diabetes and Cardiology"** jointly organized by the School of Biological Sciences (SBS) of the Madurai Kamaraj University (MKU) and Endling Conferences Private limited. SBS has been time and again and aptly recognized, right from the time of its inception, by various central and state government departments and funding agencies and major grants have been sanctioned in the form of higher education and research centres and programmes, such as, UGC- DSA (Phase I, II & III) and UGC- COSIST (Phase I & II), UGC-Centre for Excellence in Genomic Sciences (CEGS Phase I & II), UGC-CAS in Organismal & Functional Genomics (Phase I, II & III), UGC-Networking Resource Centre in Biological Sciences (NRCBS-Phase I & II), DST-FIST Programme (Repeat Cycle I, II & III), DBT-Interdisciplinary Programme in Life Science for Advanced Research and Education (IPLS), DBT-Brucella Genomics and DBT-Cancer Genomics Centre.

It cheers to note that the SBS is always keen in equipping itself with new, high-tech, modern and contemporary facilities and equipment and also making it possible for others to make use of such facilities in an optimal and judicious manner by organizing mega-events, such as, national and international conferences, workshops and hands-on training programmes. I earnestly believe that the International Conference on Obesity, Diabetes and Cardiology will certainly nurture the needs of modern scientists by providing an enlightened platform which could serve towards achieving excellence in academic arena through new scientific inputs.

A recent study published in 'Lancet Diabetes and Endocrinology' journal reported that an alarming 98 million people may have type 2 diabetes in India and 511 million worldwide by 2030. It is need of the hour to have such conferences which will boost the knowledge, instruments and manpower exchange among scientists globally, in order to address the problem at large. The thematic areas of the conference are very well planned such that it could provide excellent ambience for scientists, researchers and students to cater their needs to pursue research in modern biology in the ever growing competition to excel in biology research.

I wish the International Conference a great success and extend hearty congratulations to all the stakeholders of this international event. Further, I sincerely ensure pleasant stay in the Madurai Kamaraj University campus during this academic congregation.

With Best Wishes,
Prof. M. Krishnan
Vice Chancellor
Madurai Kamaraj University

Scientific Sessions

- Types of diabetes and its Treatment
- Diabetes Management: Awareness, Support, Therapy, and Technology
- Computerized intensive applications in Diabetes mitigations
- Neuroendocrinology and pathophysiology of stress system
- Pharmacological Management of Obesity, Diabetes and Cardiology
- Obesity based on lifestyle changes
- Chemoprevention of endocrine related diseases by using Neutraceuticals
- Technologies for the Treatment of Diabetes
- Weight gain through psychiatric medications
- Methods and models of cardiovascular physiology and electrophysiology
- Coetaneous manifestation of diabetes mellitus
- Advancement of New Drug/ Treatment of Diabetes
- Risk of hypertension and stroke
- Long term Complications in diabetes mellitus
- Diabetes-induced Heart Complications
- Metabolic Endocrine Complications
- Obesity, insulin resistance, diabetes, and cardiovascular risk in children
- Diagnosis, prevention, and intervention for the metabolic syndrome
- Neuroendocrinology and pathophysiology of stress system
- Maternal cardiovascular and other physiologic responses to the endocrinology
- The hormone resist in links obesity to diabetes
- Bariatric sleeve surgery for weight loss and Safety of tumescent liposuction

Target Audience

- *Diabetologists*
- *Cardiologists*
- *Bariatric surgeons*
- *Researchers, Scientists*
- *Endocrinologists*
- *Doctors*
- *Physicians*
- Registered Dieticians and Nutritionists
- Academic Professionals
- Students
- Manufacture Medical Devices & Companies
- Healthcare Training Institutes

Why to Attend

This conference will provide the focused learning on the distribution of knowledge, opportunities to network and discuss science and medicine on Obesity, Diabetes and Cardiology and the recent advances and technologies related to Endocrinology for making of better health. This would be the best opportunity to share your findings with fellow researchers. It is the best opportunity to explore more areas of expertise on Healthcare in Obesity, Diabetes and Cardiology. With members from all around the world increasing the knowledge about Endocrinology this is your best chance to reach the largest gathering of participants

Important Dates

Final Round of Abstract Submission Closed: January 31, 2020
Online Registration Closed: February 15, 2020
Full paper Submission: February 15, 2020
Onsite Registration: February 25, 2020
Conference Dates: February 25-26, 2020

Details of Registration Fees

Category	Online Registration January 31, 2020	MKU Staff
Speaker / Academician	Rs. 3500	Rs. 2000
Student / Poster	Rs. 2000	Rs. 1000
Delegate / Listeners	Rs. 4000	Rs. 2500
Publication Fee	Rs. 2500	Rs. 2500

International Speakers / Delegates : \$ 149

Registration Process:

Online Process: Visit our conference website registration page to make payment online and get the receipt for your payment. Wire Transfer: Request for an invoice from the conference secretariat to transfer the registration fee to mentioned account details

Mode of Payment:

Online Registration link: <http://endlingconferences.com/ICODC2020/register.php>
Beneficiary Account Name: Endling Conferences Private Limited
Beneficiary Account Number: 8012057494
IFS Code: KKBK0007457
Bank Name: Kotak Mahindra Bank, Kukatpally Branch, Hyderabad
After registration kindly send payment receipt or reference ID

Registration Benefits:

Access to all conference sessions
Educational Credits
Advanced Learning and Professional Growth
Endling Conference Kit
Conference proceedings book
Publication in corresponding partner journals
Refreshment Break & Lunch during conference days.

Title of the Paper: _____

Name of Accompanying Person, if any: _____

Date & Mode of Arrival: _____

Departure: _____

Accommodation required: Yes/No

Optional Tour (on payment basis): Yes/No

Registration Fee of Rs. _____ (Faculty/Scientist/Corporate/Accompanee/Scholar/Student)

Demand Draft/UTR No: _____ Dated _____ Signature

TOURIST DESTINATIONS TO VISIT IN MADURAI

Meenakshi Temple: This is a historic Hindu temple located on the southern bank of the Vaigai River, Madurai, Tamil Nadu. It is primarily dedicated to Parvati, known as Meenakshi, and her spouse, Shiva. That makes this temple different than the others is the fact that both God and Goddess are worshipped together. According to the mythology, Lord Shiva visited Madurai to marry Parvati and it has been the sacred abode of Goddess Parvati since her birth. The wonderful architecture of the place is amongst the seven wonders of the world and the construction is highly minute with great art pieces incorporated in the walls and pillars of the temple.

Meghamalai: Often known as the “High Way Mountains”, Meghamalai is a petit yet beautiful place located in the Western Ghats in the state of Tamil Nadu. At an elevation of 1500 meters, this place is a perfect getaway to beat the heat and enjoy some peaceful time relaxing amidst nature.

Mariamman Teppakulam: Constructed in the honor of Lord Vigneshwara, this divine temple is situated about 5 km from the Meenakshi temple. It has a huge tank in the compound of the temple and holds the record of being the biggest tank in the region of Tamil Nadu.
