

Online
Process Orientation Training Programme (POT)
on Child Centric Disaster Risk Reduction (CCDRR)

19-21 May 2021
11.00-13.00 Hrs.

Jointly Organized by

**National Institute of Disaster Management, Ministry of Home Affairs,
New Delhi**

&

**Department of Economics, Directorate of Distance Education,
Madurai Kamaraj University, Madurai, Tamil Nadu**

BACKGROUND

Disasters threaten the lives, constitutional rights and needs of the children worldwide. In past two decades India have faced devastating disasters such as Latur Earthquake (1993), Odisha Super Cyclone (1999), Bhuj Earthquake (2001), Indian Tsunami (2004), Jammu & Kashmir Earthquake (2005), Bihar Floods (2008), Uttarakhand Floods (2013), Cyclone Phailin (2013), Chennai Flood (2015), Kerala Flood (2018), Cyclone Fani (2019), Locust attack (2019-20), Cyclone Nivar and Burevi (2020) and Kerala Floods (2020). Droughts are slow onset disasters, adversely affecting children and women alike. Karnataka (16 districts) and Andhra Pradesh (4 districts) experienced at least 10 droughts between 2001-2015. During these emergencies, children are especially vulnerable to diseases, malnutrition, and violence and trafficking. Measles, diarrhoea, acute respiratory infections, malaria and malnutrition are the major killers of children during humanitarian crises. In future, vulnerability of children is expected to increase as the intensity and frequency of natural disasters rises. Keeping in view the increasing vulnerability of children from climate change and natural disasters, National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India has established "**Child Centric Disaster Risk Reduction (CCDRR) Centre**" to mainstream child centric DRR activities through Training, Research, Advocacy and Consultancy.

AIM OF TRAINING

This **3 Days Online Process Orientation Training (POT) Programme on Child Centric Disaster Risk Reduction (CCDRR)** is intended for Trainers/ Teachers/ Professors/ Faculty members of State level Universities, Colleges, Schools, Administrative Training Institutions and civil society trainers to help build their knowledge, skills and perspectives towards child centric disaster risk reduction. This will help officials understand and prepare for risk informed planning, sectoral readiness and preparedness for emergencies so as children are not deprived of basic amenities.

OBJECTIVES

At the end of this course, participants will be able to:

- Explain the Disaster Management Mechanism in India
- Identify and list the activities to protect the children and their rights.
- Describe the ways to involve children DRR activities
- Explain the process of psychological care for children in disasters
- Draft and apply strategies for home to homeschool safety with the engagement of children
- Explain the process of mainstreaming child-centric risk management

COURSE MODULE

This Course has two modules and contents of the course would touch upon the following aspects, to achieve the objectives:

Module-I: Disaster and Children

Session -1: Dos and Don'ts on Covid-19
