## Annual Status of Educational Report

### ASER

ASER is a nation-wide household survey that provides data on children's schooling and learning for a representative sample of children across rural India. Children in the age group 3 to 16 are surveyed to find out their enrollment status in pre-school or school. Children in the age group 5 to 16 are assessed one-on-one to understand their basic reading and arithmetic abilities. ASER reaches almost all rural districts of India and generates district, state, and national estimates of foundational reading and arithmetic abilities of children in the age group 5 to 16. ASER 'Beyond Basics' focused on the abilities, activities, awareness, and aspirations of youth in the 14 to 18 age group across 28 districts in the country. In 2019, ASER aims to shine the spotlight on the early years, reporting on the schooling status as well as on a range of important developmental indicators for young children in the age group 4 to 8 across 26 districts in the country.

In this juncture our students also involved the fieldwork for the survey of rural Indian youth with the guidance of Dr.Pavanthi Vembulu, Assistant Professor, Department of Political Science, DDE, Madurai Kamaraj University

The field work was done in and around Melur region of Madurai district

More than 30 students participated in this survey. The ASER centre was acknowledge and awarded
