With reference to the subject cited, it is informed that the online registration for enrolment of Ph.D has been launched on Madurai Kamaraj University website. Henceforth, the Ph.D enrolment can be made only through online application available on the research page of Madurai Kamaraj University website.

I am also to invite your kind attention to the reference cited in no.2 and 3, in which all the approved Research Centres and Research Supervisors were requested to enrol and provide their details in the form of a softcopy through the link noted hereunder. After verification of such enrolments by the University, each Department / Research Centre will be provided with a unique user id and password for entering the details of the Supervisors into the portal.

The Research Supervisors working in non Research Centres/Departments of Affiliated Colleges are requested to provide their details through a separate link as below.

It is found that most of the research centers and Supervisors have not yet enrolled their details through web link. Therefore, the Principals and Directors of approved Research Centres are requested to enrol their research centres and subsequently feed the details of Research Supervisor without further delay.

As the online registration for Ph.D through University website has been launched, the candidates can register only through the link available in the University website provided the research supervisors enrolment is made in the portal on University website.

Hence, it is significant to enrol all research centres and research supervisors working in research centres as well as non-research centres through the appropriate link provided in the Research webpage of Madurai Kamaraj University.
